## DEVELOPERS

### BH3

Led by principals Gregory Freedman, Charles Phelan and Daniel Lebensohn, BH3 is an opportunistic real estate firm with a core focus on acquiring real estate in South Florida and New York City. In addition to Privé at Island Estates, the firm's impressive portfolio includes Trump Hollywood, Terra Beachside 6000 Collins, Fontainebleau Sorrento and 1805 Ponce. The company has successfully sold in excess of \$400 million of high-end condominiums in the past three years and spearheads the design, development & sales and marketing initiatives of Privé.

### Gary Cohen

Gary Cohen is principal of the developer of Island Estates and the President of N. Island Corp. The South Island of Island Estates consists of 21 exclusive mansions and a marina that services both the North and South Islands. As one of the founding families of Aventura, the Cohen family has participated in South Florida development since the 1960's, resulting in approximately 1,000 acres of land development and planning of high rise condominiums, multifamily, single family homes, shopping centers and commercial offices. Gary Cohen's development experience is an integral part of the process for the project.

Stated measurements and dimensions of residences are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method of measurement used herein is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other projects that utilize the same method. Balconies are not part of the Unit. Measurements of rooms set forth on floorplans are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the interior air space dimensions of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All measurements and dimensions are estimates based on preliminary plans which will vary with actual construction. All floorplans, specifications and other development plans are proposed and conceptual only, and are subject to change and will not necessarily accurately reflect the final plans and specification.
