Stated square footages and dimensions of units are based on measurements to the exterior boundaries of the exterior walls and the centerline of interior demissing walls between units and will vary from the square footages and dimensions of the unit that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components and other common elements). This method of measurement is generally used in sales and marketing materials and is provided to allow a prospective buyer to compare the Units with 3 units in dimension of the "Unit" set of the unit proper that units the same method. For your reference, the square footages of the Unit, determined in accordance with the definition of the "Unit" set of the unit type C and + or -3,584 for unit type D. Terraces, patios, belconies, yards and private garages are not part of the "Unit". Measurements and the properties of the unit type D.
